

JAPANESE ORCHID

The sweetness of vanilla and warm aromas of sandalwood are the base of the Japanese Orchid fragrance. The intensity of the whole composition is created by various types of flowers, starting from lily of the valley, through jasmine, to sweet and somewhat mysterious acacia. This combination of fragrances is additionally wrapped in herbal aromas of thyme. To feel the fresh, yet subtly sweet fragrance aromas at the very beginning.

Packaging:

500 ml bottle (9 pieces in a box)

Contains:
