

## MARRAKESH

A strong fragrance base in the composition of Marrakesh is created by strong and addictive mixes of musk combined with earthy patchouli and nuances of cedar wood. Such a woody-musky base is seasoned with aromatic spices that give the whole spicy accords. Among other things, you can feel the warmth, but also the sharpness of clove. At the very beginning of getting acquainted with the fragrance, the fresh aroma of juicy citrus peel is noticed.

### Packaging:

500 ml bottle (9 pieces in a box)

### Contains:
